

PET 70 70 l fork type dough kneader, specially design fork arm, silent operation for all kinds of dough. Long life kneading system is made by endless screw and gear inside a powerful reducer. Bowl, cover and fork arm made of AISI 304 stainless steel.

Pet 70-32 70 l fork type dough kneader, specially design fork arm, silent operation for all kinds of dough. Long life kneading system is made by endless screw and gear inside a powerful reducer. Bowl, cover and fork arm made of AISI 304 stainless steel. Two Speed enable to arrange desired kneading time.

Specification

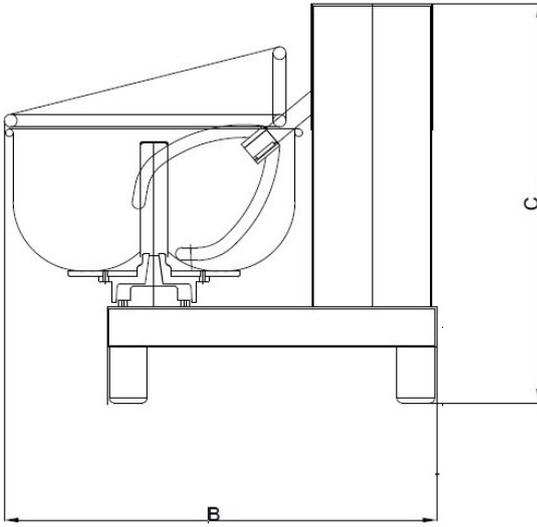

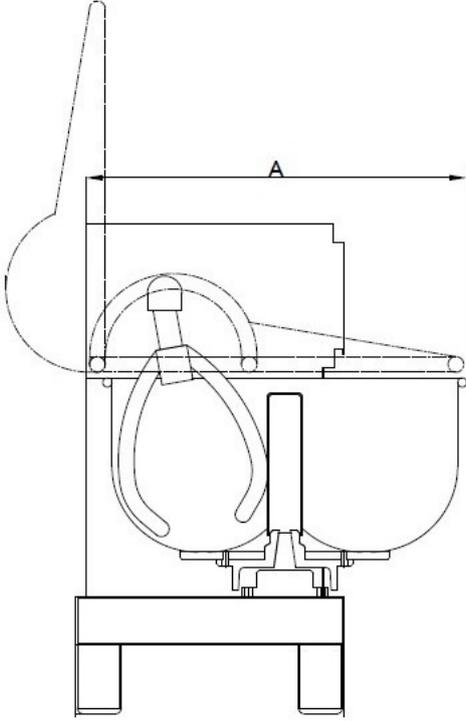

Dirmak Machinery Pet Series Fork Type mixers can knead the hardest dough with special designed reducer system. Pet Series Dough Kneaders have all of protective equipments like emergency stop, protective cover.

Main Features

- Pet series fork type dough kneaders are produced to meet your needs in the best way
- Homogenous and high quality kneading
- Reducer system with endless screw and gear
- Waterproof button control panel with timer
- Silent operation
- Maximum capacity (Flour, with %60 hydration) 40 kg for bread dough.
- Easy maintenance and easy cleaning
- Safety device will automatically stop the machine when the cover opens.
- Stainless steel cover
- Stainless steel fork arm for every kinds of dough
- Bowl is placed a way of take dough easily

Construction

- Body painted with corrosion resistant electrostatical paint.
- AISI 304 Stainless steel bowl—70 l capacity.
- Asynchronous motor with high start-up torque.
- Fully CE approved
- Power : 1,1 kW for PET 70
1,1-2,2 kW for PET 70-32

Electric

Supply Voltage :

PET 70 380-415 V/3P/50-60Hz

PET 70-32 380-415 V/3P/50-60Hz

Electrical Power Max. :

PET 70 1,1 kW

PET 70-32 1,1-2,2 kW

Capacity

Flour : 25 Kg / Cycle

Dough : 40 Kg / Cycle

Meat : 47 Kg / Cycle

Capacity : 70 liters

Bowl Diameter: 600 mm

Key Information

Depth (A) : 1040 mm

Width (B) : 760 mm

Height (C) : 1050 mm

Shipping Weight : 200 Kg
